<ul style="list-style-type: none"> • Work placements in companies and/or research centers.

LEARNING OBJECTIVES
<ul style="list-style-type: none"> • Get to know the techniques and work procedures of R&D&i centers oriented to Micro/Nano-Electronics. • Provide an alternative perspective of Micro/Nano-Electronics from a business or academic point of view. • First contact with specific equipment for design or experimentation.

LEARNING ACTIVITIES
<ul style="list-style-type: none"> • Work placements.

EVALUATION SYSTEM
<p><u>Work Report</u></p> <p>The student must write a report about the work placement once it is finished. This report will be accompanied by a letter of the tutor at the company and/or research center. The academic Tutor – a faculty member of the Master –, in view of the report and the letter of the tutor at the company, will grade the course as “APTO” (PASS) or “NO APTO” (FAIL). This course will not be rated with a numerical grade. In any case, this evaluation system will be subject to change depending on the provisions of the regulations in force.</p>
